MANUAL TERM A DATE OF TWO SECURED IN THE PROPERTY OF THE PROPE

beyond the rability to pay. In private life d str ss, while, on the co trary, if we live with ns any more than it does in private life. has been observed that the American peop real y suffer from too much prosperity. To extent this is true; the ease with which monearth. () r government and our people are a

We import more than we export, and, as a debted: ... We not only drink foreign tea at coff e. w ich cannot very well be he pe ver'ened with foreign sugar, which we cou In p if we would, but we must be clothed with purple an fine linen from abroad. We walk o fore.gn carpets—the extravagant amo g us we mean-wear foreign coats, pan al ous, an es and sometimes foreign boots and shoes Our cigare are Havana made, our preserves for tigh grown, and our choice wines and spirits are all for ign | In our foreign vest nocke is a foreign made watch, fastered a ound or necks by a foreign-made r bbon. We trav l by foreign coals, send abroad raw Amercoth to warm or cld American bodi s. Often from the crown of our head tie soles of our feet-hat, boots, sh t, and alwe are encased in foreign material; while our f egn sike and satus, cut into pattern abroad is served with more fidelity or fear th n we serve the gode and goddesses of the fashionable wor d abroad. The despot is master of our r bes and our meals, of our fuenitur and our plate, of what we walk upon, sit upon s eep pon, and almost all that we gaze upon f om the foreig -painted scenery of a foreig p ay or opera to the charming foreign a

wi h d light our ears and lighten our pur Hence it is that we import fifty in ions a year more that we export. Hence it is, t a we to-day owe three h ndred millions of d lla s to E rope. It s as individual consum of fore gn I x ries-for foreign necessities we m ist have and can eas ly pay for too-that w have created thus foreign debt. To meet it as I ur e, we are send g abroad specie from a q arter of a m - on to a million and a q art of do a . by every steamer. We rece ve th peec ous metals from our own shares on the Pac c, and in vast q an ities, twice a mor h.
o y to d spa ch them twice as often across th ting ebtedness for the luxuries we consume man's tast sor des res, much less to prescrib To the El ors of the Louisville Journal: s; but it has struck us that, if we have a tr American party among us, we should show that own it ust v. to cots me m re of our ow eat, d. k. wear, and use Som ch fore g should at least labor hard to make our importand exports square with each other.

hok lows but that I may yet write iny history

LEWIS EDWARDS, E-q., Washington

This most important work, which in past year has not been very profitable to its stockholders.

of the constraint of rowal terrors of contains a steadying the implement and in instruction that all three of his assailants for years. The whole of that crop and a part that of the previous year are still there awaiting it is sport tion. One of the first effects of its mold-board vertical with the horizon. Again, in sod land where the furrow slice address to The names of the parties had not a first effects of the previous year are still there awaiting the steading the first effects of the previous year. e doing t was to impede the navigation of the gether for many feet in length, the weight of This story is doubtless rather deficult of b per Mississ ppi a d the II nois rivers, and that part which is behind the plow aids in pulling over the portion immediately upon the share.

This story is doubtless, rather d fine it that part which is behind the plow aids in pulling over the portion immediately upon the share.

This story is doubtless, rather d fine it their continue it in its support, it may be stated if publishers of the Anzeiger, to whom to so that sod can be turned with a plow several their correspondent and the correspondent and revious year's or p. only a pluon was sent degrees more acute in its angles than loose earth, which, breaking officious behind the plow, presented and the correspondent and the d portions of their crop for an anticipated bear upon the work. And this is the reason

Taade with Canada.—A number of United States merchants are purchasing wheat along the Galt Branch of the Great Western Railway

the Gait Branch of the Great Western Railway for the American market.

While wheat is so scarce and high as it is, this may be all well, but when agricultural products fall in price, this foreign comjection thus brought into existence by the reciprocity treaty, will be seriously felt by American farmers.

House of Representatives, red., 1800.

A New American Agent.—Professor Dugas, in the Medical College of Georgia, a few days since, had to extirpate a large tumor on the back built by McKay, sailed from Boston yesterday, for Liverpool. She is two thousand five hundred the four or five minutes, which so obtunded the parts that the operation was performed with comparatively little pain.

why the Rounder plow, so efficient in stubble
We have leard the qualty of old corn on
at last fall on the II nois river alone estimated

We have leard the qualty of old corn on
the land, breaks sod to pieces in lengths of three or
four feet, throwing the fragments across the at three milions of bushels.

I wa and Northern limois there is a very arge quarty of Indian corn and wheat which will be sent to maket as soon as navigation less.

We have conversed with persons from Iowa, who state as a fact that around Iowa City and at the properties of the state of the who state as a fact that around Iowa Criy and at replaced for the state as a fact that around Iowa Criy and at replaced for the state of the state. We therefore suggest that the committee's report on plows should at on the river it could be purchased for we y-fivecents.

If the signess are correc' (and we have noted in the following:

What are the measured angles to the leading points of the plow which does good work with the lightest draft?

Is there necessarily any difference other than reach this market and be sold at a price blow which the mightest draft?

Is there necessarily any difference other than reach the which it owner its.

We shalk be gratified at such a result. It will be a blesting to all classes, for it is an admitted and lame tab fact that the price of breadstuffs is d-tressingly light.

The first limit by the price of breadstuffs is d-tressingly light.

The first limit by the price of breadstuffs is d-tressingly light.

What are the measured angles to the leading points of the plow which does good work with the lightest draft?

Is there necessarily any difference other than in the market and be sold at a price blow.

Does a niche at the bottom of the mold-board lessen the draft of the plow?

Does a niche at the bottom of the mold-board lessen the draft of the plow?

Does a niche at the bottom of the mold-board lessen the draft of the plow?

Does a niche at the bottom of the mold-board lessen the draft of the plow?

Does a niche at the bottom of the mold-board lessen the draft of the plow?

Does a niche at the bottom of the mold-board lessen the draft of the plow?

Another very important element in the proper trial of implements is the qualifications of the tries and particle of sone, but can condicately assert that I be treat and faster at the Kentucky Female It tries are also as the price of seven a mole rate degree of perfection, may part. I am determined to progress in the qualifier to priors and by pour tries of perfection, may part. I am determined to progress in the qualifier to prove t

triers. No member of a committee of judges who is biased in favor of some particular pattern of the plow can do justice to other forms, and so of other implements. It appears to us that the best committee of jurors would be one composed of good, practical farmers, with one or more manufacturers:

To the Editors of the Louisville Journal:

Gentlement. It appears to us that the best committee of jurors would be one composed of good, practical farmers, with one or more manufacturers:

To the Editors of the Louisville Journal:

the road to Nashville.

The ordinance proposing a loan of \$10,0001

Marie Proposition of \$10,0001 the road to Nashville. per mile in bonds to the Memphis road was taken up and sundry amendments offered and supp wted by Alderman Shanks in a lucid, graphic. and eloquent address. The ordinance he thought of the above arr ral 224 887 were may and 173 a safe one—it contemplates not one cent of taxes from the people; that the dehts charged upon which the foreigners above enumerated the sinking fund will be fully retired by twelve born: morths from this time, and in the event that the road should fail to pay the interest and principal and interest, the sinking fund in thirty years will pay intest and princ pal and have a large s on \$600,000 to the Memphis road, \$700,-(NIO to the tunnel, and \$800,000 to the Nashville

Mr. Shanks clearly exhibit-d the impo of these three enterprises being fos erel and in reed by the capitalists and citizens of Louisv le. Mr. Douglass likewise advocated the The trades and occu ire, but was in favor of the ordinance grants are stated as follows: from the Common Council. He came right up No at - . . . 19 173 Phys. the point and proved that his proposition met fully the exigency of the times, free from taxation, void of intricate points, and available by the whole commercial, manufacturing, and agricultural interests of Kertucky. He desired 3 nh, 1843, to December 31st. 1854, is stated at that the spade and plow should be put into the 3,174,395. g ound immediately, the road graded, and ballasted, and then the city to issue bonds, the proceeds of which to be spent in putting down the

THE BATEMAN CHILDREN. — Owing to the inference of the water that the Bateman children. But those who were the were highly pleased, gratified, and enter thaned, and will, we doubt not, coincide with us in the option that it would have been almost appearances, must quietly await the moving of the waters. possible for the parts which were played by these worderf I children to have been better The Expected Sardinians - Not Convicts but Sustained. Their acting was marked with sich unitstakable truth and vivacity that older votates of the diama and those long accustomed to walk the boards might have been proud to have different walks the hours own. Genius such as definition to the Sardinians now on their way to have here own. Genius such as definitely such as definite walk the boards might have been proud to have d lineated as their own. Genius such as devel ped in these chil ren. and thus early displayed in the men were merely political exists. As they are only obnoxious to monarchies, no objection will now be made to the r landing on our them it is complete and clear in its manifestation, and the deep and tearful feeling exhibited to be held in Philadel phia.
